DETAILED ACTION

Claims 21-27 are currently pending in this application. Originally presented claims 21-23 were subjected to "species election" requirement, requiring the applicants to elect a single amino acid position for the variant human DNase I along with the requirement for election of a single amino acid SEQ ID NO: for further prosecution. New claims 24-27 were filed by the applicants in response to the "Species election".

Election/Restrictions

The reply filed on 7-24-03 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicants were required to elect a single species i.e., a single amino acid position and a single amino acid SEQ ID NO, for further prosecution. However, while applicants have elected a single amino acid position, "N74K", they have not elected a single amino acid SEQ ID NO. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
